

PROPOSAL FOR A STUDENT-DEFINED THEME IN THE ENVIRONMENTAL EARTH SCIENCES MAJOR

Please complete this form and turn it in to Professor David Fike, EPS 246 (dfike@levee.wustl.edu).

Name: _____

Year: _____

Date: _____

Title of proposed theme: _____

List the courses you propose to take for this theme. No more than two of these courses may be taken outside the natural sciences. (Top course *given as example*; write yes in "Taken already" if you are listing a course you've already completed.)

| Dept. | Course # | Title | Credits | Taken already? |
|-------|----------|----------------------------------|---------|----------------|
| EPSc | 201 | <i>Earth and the Environment</i> | 4 | Yes |
| | | | | |
| | | | | |
| | | | | |
| | | | | |

In no more than one page (attach to this sheet), provide a rationale for the courses you've chosen. How do they fit together to help you develop and understanding of your proposed theme? Where do they overlap in content, and where do they complement each other? You should specifically discuss each of the 5 courses. Please also attach the course descriptions for each of your proposed courses.
